CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
STATE WATER RESOURCES CONTROL BOARD

DIVISION OF WATER RIGHTS

In the Matter of Licenses 10643, 11433 and 11434 (Applications 23283, 24715 and 24716)

Laron L. Kunkler

ORDER REVOKING LICENSE

SOURCE: Unnamed Springs tributary to Unnamed Stream thence Carberry Flat

COUNTY: Shasta

WHEREAS:

1. Revocation request forms dated February 4, 2004 have been received from the Licensee, requesting revocation of the above listed licenses by the State Water Resources Control Board (State Water Board), Division of Water Rights (Division).
2. The Division interprets the Licensee's request for revocation as a waiver of the notice and hearing requirements set forth in Water Code sections 1675 through 1675.2.

Therefore, it is ordered that Licenses 10643, 11433 and 11434 are hereby revoked by the State Water Board, and the water is declared to be subject to appropriation. This revocation may not result in additional water being available for new appropriations if there are applicable restrictions due to past State Water Board decisions regarding water availability.

STATE WATER RESOURCES CONTROL BOARD

AUG 22 2006

STATE OF CALIFORNIA
STATE WATER RESOURCES CONTROL BOARD
DIVISION OF WATER RIGHTS

License for Diversion and Use of Water

APPLICATION 24716

PERMIT 17041

LICENSE 11434

THIS IS TO CERTIFY, That

Monte Kunkler and Mary Kunkler
2739 Akard Avenue, Redding, California 96001

have made proof as of July 27, 1983 (date of inspection) to the satisfaction of the State Water Resources Control Board of a right to the use of the water of An Unnamed Spring (AKA Pond Spring) in Shasta County
tributary to An Unnamed Stream thence Carberry Flat thence Hatchet Creek
thence Pit River thence Shasta Lake thence Sacramento River

for the purpose of Irrigation use

under Permit 17041 of the Board and that the right to the use of this water has been perfected in accordance with the laws of California, the Regulations of the Board and the permit terms; that the priority of this right dates from November 27, 1974.

The amount of water to which this right is entitled and hereby confirmed is limited to the amount actually beneficially used for the stated purposes and shall not exceed one thousand seven hundred fifty (1,750) gallons per day to be diverted from May 1 to October 15 of each year. The equivalent of such continuous flow allowance for any 30-day period may be diverted in a shorter time provided there be no interference with other vested rights and instream beneficial uses; and provided further that all terms or conditions protecting instream beneficial uses be observed.

THE POINT OF DIVERSION OF SUCH WATER IS LOCATED:

North 600 feet and West 2,400 feet from SE corner of Section 29, T35N, R2E, MDB&M, being within SW $\frac{1}{4}$ of SE $\frac{1}{4}$ of said Section 29.

A DESCRIPTION OF THE LANDS OR THE PLACE WHERE
SUCH WATER IS PUT TO BENEFICIAL USE IS AS FOLLOWS:

Irrigation of 0.25 acre within SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 29 and NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 32, both T35N, R2E, MDB&M, as shown on map on file with State Water Resources Control Board.

This license shall not be construed as conferring upon the licensee right of access to the point of diversion.

During the period between July 1 and August 31 if, in the absence of licensee's diversion, hydraulic continuity would exist between licensee's diversion point and Pit River, licensee shall not divert water but shall open his diversion works and allow the water to flow undiminished downstream.

The quantity of water diverted under this license is subject to modification by the State Water Resources Control Board if, after notice licensee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control programs which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved (2) the water quality objectives cannot be achieved solely through the control of waste discharges.

Licensee shall allow representatives of the Board and other parties, as may be authorized from time by the Board, reasonable access to project works to determine compliance with the terms of this

Pursuant to California Water Code Sections 100 and 275, all rights and privileges under this license, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

This continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this license with a view to minimizing waste of water and to meeting the reasonable requirements of licensee without unreasonable draft on the source. Licensee may be required to implement programs as (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity in all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this license and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the Board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the use of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed under the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.
